ATTACHMENT I

- A.S. \$950 P.

The following are the EPA's comments pertaining to the document entitled **Draft Site-Specific Health and Safety Plan for Sites 1, 3, 5, 6, and 8** dated December 20, 1994.

- 1. **Figure 1.1:** Revise figure to identify the exclusion, contamination reduction, and support zones as specified on page 4-1.
- 2. **Page 8-4, Table 8.1 Emergency Telephone Numbers:** Revise EPA response number to: EPA Region 1 Emergency Response Office (617) 860-4361. Note that this office is located in Lexington, MA and that the EPA response time would be at a minimum driving time of 3 hours from the Boston metropolitan area.
- 3. **Page 8-6, Bullet 6:** USEPA Regional Administrator's telephone number is not included in the emergency contacts table. Replace contact to EPA Region 1 Emergency Response Office at (617) 860-4361 or EPA Project Manager, Robert Lim (617) 223-5521.
- 4. **Page 9-1, Training Requirements:** Per 29 CFR §1926.58(k)(3) which presents "Employee information and training" during construction which involves asbestos, the Navy and OHM should ensure that workers who will be conducting excavation and containerization of the asbestos containing materials at Sites 5 and 6 receive the appropriate training during the three-day on-site training that this section specifies.
